PEELS -

A New Level of Skin Renewal. The procedures take about 30 minutes and you may return immediately to your daily activities. Chemical Peels are topically applied controlled acids that aid in the restoration and rejuvenation of the Face and Body skin's surface aiding in lightening, controlling acne and smoothing the skin. Chemical peels help to slough off the dead cells on the surface of the skin and then stimulate the skin's natural restoration process to promote regeneration and renewal of the skin . Typically with appropriate sun protection you can resume regular activities immediately.

***PCA Peel** - Your Esthetician will choose the correct blend for your skin's needs -- extremely sun-damaged, thickened skin, acneic skin, mature skin.
